

Twin Studies of Aging: beyond h^2

- Association: e.g., Episodic Recognition Memory change

Reynolds, Jansson, Gatz & Pedersen (2005). *Neurobiology of Aging*

- GxE: e.g., MZ pair differences in semantic memory change

Reynolds, Gatz, Berg, & Pedersen et al (2007), *Twin Research and Human Genetics*

Future Research

Complete Follow-up

–Normative vs
Pathological Change vs
Terminal decline

*Sample collection for
epigenetic studies*
